Interoffice Memorandum**

TO: Glen Keller, P.E., Chief
Sewer Design Section
Department of Public Works

FROM: Kritty Udhin, P.E., Manager Stormwater Management */signed/*

DATE: May 13, 2020

SUBJECT: Bread & Cheese Creek Sewer Rehab
Stormwater Management Variance
Back River Watershed
Project I.D. M160210
DEPRM Tracking # 07-20-3238

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. Section 33-4-114 (a) (2) allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this section would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the rehabilitation of existing sanitary sewer infrastructure by cut and cover and/or trenchless CIPP lining. The existing cover conditions will be re-established once the project is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Andrew Fish, P.E. at 410 887-3768 should you have any questions.
